CALL FOR PAPERS

gita

GEOSPATIAL INFORMATION & TECHNOLOGY ASSOCIATION®

PRICING

\$275 *GITA member*

\$350 *Non-member*

\$500 *Vendor (includes booth, speaking and (1)attendance)*

LOCATION

The 2018 annual conference for the PNW GITA will be taking place April 23th & 24th at the Future of Flight in Mukilteo, WA, only 30 minutes north of downtown Seattle.

Since 2000, the Pacific Northwest Geospatial Information and Technology Association (GITA) has held an annual conference celebrating the use of geospatial technology. This year's speakers will again include a panel of industry visionaries including Peter Batty and Geoff Zeiss. Come join us this year for the 2018 Conference in Mukilteo, WA. We welcome submissions and encourage conference participants to propose papers that will be of interest to a diverse audience.

Submission deadline is March 1, 2018.

The Geospatial Information and Technology Association (GITA) is the professional association and leading advocate for anyone using geospatial technology to help operate, maintain, and protect the infrastructure, which includes organizations such as utilities, telecommunication companies, and the public sector. Through industry-leading conferences – along with research initiatives, chapters, membership, and other programs – GITA provides education and professional best practices.

The infrastructure is all fundamental services, activities, and operations that sustain our communities and way of life – from keeping the lights on to creating safe drinking water to responding to an emergency.

GITA Pacific Northwest represents and supports the Geomatics industry throughout the provinces of British Columbia, Alberta, and the states of Washington, Oregon and Idaho. Our inclusive association enables true collaboration; which comes with interacting with your peers from different industries including government, resource, energy among others.
